RE: Epic Training and Survey

In order to maintain the health of our providers and associates during the COVID-19 pandemic, Catholic Health recently determined that all training for the *It's Epic* implementation project will occur via live online classes.

To determine the resources needed for our associates to have a positive training experience, we ask that you to complete the brief survey attached at the top of this email. It also will be available on the Catholic Health intranet homepage.

It is very important that you complete and submit the attached survey no later than Friday, June 19.

Note: Due to limited capacity at Catholic Health locations, we encourage everyone to participate in training from off-site, such as your home, whenever possible.

If you have any questions, please email EpicTraining@chsbuffalo.org or call the Help Desk at 716-828-3600.

Thank you for your continued cooperation during this process.
