BULLETIN

June 2023 News/Updates for Inpatient Providers

- ## Updates to Admission Medication Reconciliation

  Some changes to the Look and Feel of the Admission Orders screen in order to better asssit with the Admission Med Rec process.

- ## New BPAs

  Malnutrition - based on Dietician documentation
  Pressure Injury - when a patient has had a pressure injury documented in their chart
  20 Day Admission Certification - (Medicare patients)
  C diff BPA - Providers will receive a BPA upon attempting to order systemic antibiotics on a patient identified in Epic as having a C. diff diagnosis code or positive C. diff test in the previous 100 days, or C.diff listed in their current problem list.

- ## Expected Location of Delivery and EDD for CHS Maternity Patients

  To aid in providing more accurate reporting and volume estimates for each site's Labor and Delivery department.

- ## Natera Lab – placing orders

  Effective **June 27**, Natera lab orders and results will be interfaced into Epic. Please note the following changes to the provider ordering process for successful intra-operability.

  Detailed information for all the above can be found on your Learning Home Dashboard
  ~ in the "What's New for Inpatient" section
