

BULLETIN

November 2023 News/Updates for Inpatient Providers

- **Epic Upgrade – November 15**

Upgrade coming November 15. Find the slide-deck with information about the upgrade on your Learning Home Dashboard under the What's New section. These slides will show you what's coming with the upgrade – New features, workflows, some timesavers, or just a new look in parts of Epic

- **Consult Order Updates**

To improve in-network referrals for Catholic Health, when selecting the find tool magnifying glass in the consult order, the Provider Finder information returned will be sequenced. The specialists will be sorted into preferred provider lists. More details on the tipsheet on your Learning Home Dashboard

- **New AVS instructions for PAT/ASU Infection Prevention**

Instructions for “Preventing Infection after Surgery” will now be automatically added to your patient's After Visit Summary.

- **Updates from Lab** – see detail info sheets on the following

Quantiferon TB Gold test (LAB11131) - Testing laboratory changed from Quest Diagnostics to CHS – Sisters of Charity Hospital. (turnaround time reduced)

MRSA Nares, PCR (LAB14262) - new test - Rapid, same day detection of MRSA from a nasal swab

Culture, Single Organism (LAB234) – discontinued 12/31/23

Detailed information for all the above can be found on your Learning Home Dashboard
~ in the “What's New for Inpatient” section
