

June 2024 News/Updates for Inpatient Providers

- **Diabetic Supplies at Discharge**

When ordering Diabetic supplies for your patient at discharge such as meters, lancets, testing strips, etc, you will be prompted to associate a diagnosis with the order before ePrescribing **(this will not be active/live until end of June)**

- **A-FIB Tools Upgrade**

With the upgrade to our system in May 2024, you will see some new tools designed to more easily identify atrial fibrillation patients with elevated risk for bleeding or stroke.

- **Discharge Placement Delays - Milestones Progress Column**

The Milestones Progress column now has a hover bubble that provides quick access to a list of active discharge delays and discharge milestones. This column currently exists in the SIDR (Structured Interdisciplinary Rounds) Patient List, but you can also add the column to your own patient list.

- **Epic SmartUser Classes**

Free Epic efficiency classes with CME for any CHS provider! Learn efficiency tips for being your best in Epic. Class schedules are available at <https://epic.encyclopedia.com>

Detailed information for all the above can be found on your Learning Home Dashboard
