

October 2024 News/Updates for Inpatient Providers

- **Cardioversion orders – new prompt for anticoagulation therapy**

In order to prevent clinicians from ending the cardioversion log and “starting over” in the TEE with Possible Cardioversion log, we have added a question for anticoagulation.

- **New NPO question added to TEE orders**

An additional question has been added to the Inpatient TEE order to help avoid rescheduling the procedure: Has the patient been NPO for 8 hours?

- **Religious and Cultural considerations**

Assessment of Religious and Cultural considerations is required at the time of admission and on an ongoing basis as needed during the patient’s hospitalization. (effective Oct 29)

- **What’s New – A Tailored Upgrade Training Experience**

“What’s New” is a new feature within Epic that reminds users of an upcoming upgrade and gives each individual information on the changes that matter most to them. The review information includes what is relevant to you based on what you do in Epic every day and your job role. You will get a notification for What’s New when close to an upgrade, or you can search for What’s New in your search bar.

- **Epic SmartUser Classes**

Free Epic efficiency classes with CME for any CHS provider! Learn efficiency tips for being your best in Epic. Class schedules are available at <https://efficiency.epic.com>

Detailed information for all the above can be found on your Learning Home Dashboard
~ in the “What’s New for Inpatient” section
