

BULLETIN

June 2025 News/Updates for Inpatient Providers

- **Patients with Multiple Therapy Plans**

If a patient has multiple active therapy plans, all therapy plans are initially collapsed in the multi-episode Therapy Plans navigator sections. This should make it easier to see the name of each plan for a patient to prevent potential adverse events, such as from drug interactions.

- **Secure Chat ~ Message Wisely**

Find the tipsheet on your Learning Home Dashboard with instructions for using Secure Chat Wisely – and more efficiently. Also remember that Secure Chat is a messaging tool for clinicians to use for work activities and communication, not for private messaging.

- **Lab Update**

To improve operational efficiency and streamline workflows, we will be centralizing our histology processing to the laboratory at Sisters Hospital beginning **June 16**. This change is intended to support better resource utilization while maintaining high-quality service and turnaround times. See the Lab memo on your Learning Home Dashboard.

Free Epic efficiency classes with CME for any CHS provider. Learn efficiency tips for being your best in Epic. Class schedules are available at <https://efficiency.epic.com>

Detailed information for all the above can be found on your Learning Home Dashboard
