## February 2026 News/Updates for Inpatient Providers

- **Insights**

All Clinicians and Residents now have access to generate insight summaries. See the tipsheet for more info on how to generate summarizations and create patient lists with patient insight summaries.

- **Haiku Image Links**

Providers using Haiku are now able to link directly to PACS images from the patient's Results section.

- **ENT Consults – transport to Sisters**

Patients needing an ENT consult can be sent to Sisters. Follow the steps on the information sheet – found on your Learning Home Dashboard

- **Leave of Absence - Refresher**

If a patient's admission needs to be paused while he receives care elsewhere, and will be returning, the patient can be put on a leave of absence rather than discharged.

- **Get efficient**

Learn efficiency tips for being your best in Epic. Physicians and APPs report saving an average of almost an hour per week for each SmartUser class attended. Epic efficiency classes are free and include CME for any CHS provider. See the class schedules and register at <https://efficiency.epic.com>

***Detailed information for all the above can be found on your Learning Home Dashboard***
